Cookies on Dice

WHAT ARE COOKIES?

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

WHAT TYPES OF COOKIES DO WE USE?

We use two types of cookies on our website:

'Session Cookies'

These are temporary cookies, which only exist in the period you access the website (or more strictly, until you close the browser after accessing the website). Session cookies help our website remember what you chose on the previous page, therefore avoiding having to re-enter information. On our website, these cookies do not contain personal information, and cannot be used to identify you.

'Persistent Cookies'

These are cookies remain on your device after you have visited our website. These cookies help us to identify you as a unique visitor (by storing a randomly generated number).

WHY DO WE USE COOKIES?

To tailor our website so that it meets your specific needs, we use different technologies, including cookies, which allow us to distinguish you from other users of our website.

We use cookies: To recognise and count the number of visitors and pages or various parts of a page they have visited on our site; To see how visitors move around the site when they are using it, for example, we use Google Analytics, a popular web analytics service provided by Google Inc. Google Analytics uses cookies to help us to analyse how visitors use our site. This helps us to improve the way our website works, for example, by ensuring that visitors are finding what they are looking for easily. Find out more about how these cookies are used on Google's Privacy site.

To improve and monitor the advertisement we offer to our visitors. We also use Google's DoubleClick, which is one of the worlds leading provider for ad management and ad serving solutions. Like most websites and search engines, Google uses cookies in order to provide a better user experience and to serve relevant ads. Find out more about how these cookies are used [click here](#)

. To present our visitors with the most appropriate advertising banners and content, based on our visitor's interest and activity, we, for example use Yahoo! Search Marketing, search marketing tool of Yahoo! (including Overture Search Services (Ireland) Limited). On behalf of Dice Careers Limited, Yahoo! Search Marketing will use this information to help us monitor the performance of our online marketing campaigns. For more information about how Yahoo! uses information supplied on Yahoo! Advertising Solutions web sites, please read the [Yahoo! Advertising Solutions Privacy Policy](#)

. In summary, by using cookies we are able to improve your experience when you browse our website and enable us to continually improve our site and our services for you. Our cookies have been set in our

browser and we will assume you are ok with them via your continuous use of our website. You can disable certain cookies as set out below. If you disable these cookies we cannot guarantee how the site will perform for you.

MANAGING YOUR COOKIES

Enabling cookies will ensure you receive the optimum user experience from our website.

Most browsers automatically accept cookies, but you can deactivate this function at any time and set your browser to notify you whenever a cookie is sent. You can use your browser settings to block all or some cookies. Please note that if you do block all cookies you may not be able to access all or parts of our site.

Most browsers automatically accept cookies, but you can deactivate this function at any time and set your browser to notify you whenever a cookie is sent. You can use your browser settings to block all or some cookies. Please note that if you do block all cookies you may not be able to access all or parts of our site.

Amending your cookie settings is different in different browsers, for ease, we've included instructions on amending your settings in the most popular browsers below:

OPT-OUT FROM GOOGLE'S DOUBLECLICK

Anyone who prefers not use Google's DoubleClick cookie can opt out. This opt-out will be specific only to the browser that you are using when you click the "Opt out"

button.<http://www.google.co.uk/policies/privacy/ads/>

OPT-OUT YAHOO! SEARCH MARKETING

If you choose, you may opt-out from Yahoo! Search

Marketing using information collected with web beacons and cookies outside of the Yahoo! network of web sites. Cookies will need to be enabled for the opt-out to function.

Note: This opt-out applies to a specific browser rather than a specific user. Therefore you will need to opt-out separately from each computer or browser that you use. Additionally, the opt-out only applies to cookies used by perf.overture.com and not all cookies set by overture.com.

How to check cookies are enabled on windows platforms
